PRACTICE PROFITABILITY

## VETERINARY TREATMENT PACKAGES

**We suggest a simple tiered pricing structure.**

The right pricing strategy will provide you with strong revenue potential for your practice, and give valuable access to regenerative therapy to your customers at a fair price. Your integration process will include guidance on setting up pricing that works for you and your customers. This chart represents average pricing from various veterinarian practices around the United States. Actual pricing is variable depending on region and demographic.

PRP Injections	\$400 - \$800
Stem Cell Injections	\$1,000 - \$3,500
Protein Concentrate Injections	\$800 - \$1,500

*\*Prices may vary depending on demographic and stand-alone vs. adjunct treatments.*
